- C lang

EXPERIENCE

Coding C lang

2023

My writing code in the C programming language to organize a collection of old books. The program takes user input to gather information about each book and stores the data one book at a time. This is my first project, which I started in my first year.

Portfolio

2023

This is a work that I submitted to the university last year. I am proud of my efforts, as I refused to give up. I created this piece through consistent practice and dedication to improvement.

Resume

2024

This is my latest work, a website-style resume that I've crafted to submit to companies like yours. I have put a lot of effort and poured my heart into it, reaching the point where I am today.

CERTIFICATES

IAMSCI 8

I had the opportunity to attend a camp organized by KMUTT University. It was a lot of fun and provided me with valuable learning experiences.
